## EXPERIENCE

### Customer Project Manager | Ericsson | Noida, India | October 2024 - Present

- Lead delivery governance and service operations across global infrastructure and technology programs spanning 40+ countries.
- Coordinated 15,000+ infrastructure deployments while maintaining 99%+ SLA performance across global delivery environments.
- Managed 30+ vendors, OEMs, and stakeholders, improving delivery predictability and operational visibility.
- Built governance dashboards and reporting automation solutions using Power BI, Excel, and SQL to strengthen executive decision-making.
- Reduced delivery delays by 30% and contributed to operational optimization initiatives exceeding \$7M in value realization.

### Delivery Lead | Ericsson | Noida, India | December 2021 - September 2024

- Led infrastructure lifecycle governance across 130+ countries, improving compliance visibility and operational standardization.
- Increased OEM governance coverage from 6% to 96% across 85,000+ infrastructure assets within approximately three months.
- Identified 10,000+ lifecycle gaps through governance audits, strengthening refresh planning and infrastructure readiness.
- Delivered approximately \$600K-\$700K monthly savings through vendor optimization and governance initiatives.
- Coordinated supply chain governance, procurement activities, and lifecycle planning across global delivery environments.

### IT Engineer | Ericsson | Noida, India | November 2019 - November 2021

- Supported infrastructure operations across environments containing 40,000+ enterprise assets.
- Reduced recurring incidents by 35% through structured problem management and root-cause remediation initiatives.
- Improved CMDB accuracy by 25%, strengthening governance, reporting, and asset visibility.

- Digitized reporting and SLA governance processes, improving operational transparency and service performance.

### **Assistant Engineer | Ericsson | Bengaluru, India | September 2016 - October 2019**

- Supported rollout of 5,000+ infrastructure deployments across multi-country environments.
- Coordinated ISP provisioning, deployment readiness, and operational execution activities.
- Managed purchase order validation and bill-of-material tracking for 3,000+ infrastructure components.
- Collaborated with deployment, logistics, and support teams to improve operational readiness and delivery execution.

### **Business Development Associate - Internship & Full-Time | Think & Learn Pvt Ltd | Bengaluru, India | January 2016 - August 2016**

- Developed reporting dashboards and operational analytics supporting business performance tracking.
- Automated reporting activities improving visibility and operational efficiency.
- Supported stakeholder coordination and business operations across regional teams.

---

## **EDUCATION**

**Bachelor of Technology – Computer Science Engineering | Manav Rachna International University, Faridabad, India (2012–2016) | Faridabad, India**

---

## **CERTIFICATIONS**

**PMP (PMI), PSM I (Scrum.org), ITIL 4 Foundation, Azure Fundamentals (AZ-900 – In Progress))**

---

## **AI & AUTOMATION PROJECTS**

### **VertexOpsX**

- AI-assisted infrastructure operations governance platform simulating hyperscaler-scale delivery visibility, SLA intelligence, escalation management, and operational risk analytics.
- **Link** - <https://vertexopsx.lovable.app>

### **ProgramPulse AI**

- Conceptual enterprise governance workspace for cross-functional program management, roadmap governance, dependency intelligence, and AI-assisted delivery coordination.
- **Link** - <https://program-pulseai.lovable.app>

### **ExecuPilot AI**

- Executive AI intelligence assistant simulating strategic delivery insights, governance recommendations, operational forecasting, and leadership decision support.
  - **Link** - <https://apex-exec-guide.lovable.app>
- 

## **AWARDS & HONORS**

### **Key Contributor Award (2026 & 2023) | Ericsson - Received from CEO Börje Ekholm**

- Company-wide recognition for exceptional contribution to global delivery and operational excellence.

### **Galactic Award (2021) | Ericsson**

- Recognized for driving infrastructure lifecycle transformation and operational resilience initiatives.
-
